

Launch Into Your Future

Senior Launch Checklist

Student Learning Deck

Three ideas to use now

- **Know this**

- The checklist must match the student's college, training, apprenticeship, service, employment, or adult-education route.
- Applications, aid, documents, deposits, interviews, onboarding, and transition logistics have different owners and dates.
- A task is complete only when the student has confirmation or knows the next responsible contact.

What to know. What to verify.

Start here

- A senior launch checklist converts a chosen postsecondary route into assigned tasks, deadlines, confirmations, and summer follow-up through the first day.
- The checklist must match the student's college, training, apprenticeship, service, employment, or adult-education route.

Verify before acting

- Do not use one checklist as a substitute for program-specific requirements.
- Do not assume every senior is pursuing college.

Build your action plan

● Next moves

- Name the intended postsecondary route and the current backup route.
- List every remaining application, aid, document, interview, enrollment, or commitment task.
- Confirm transportation, housing, technology, health, accessibility, and support needs.
- Assign each task an owner, deadline, evidence of completion, and escalation contact.

Use it now

Exit ticket

Write the next action you will take about Senior Launch Checklist. Name the official person or office that can verify your information, and choose a follow-up date.
